

Change of Dog notification form

This form has two parts. This is what to do with them:

- **Part One** – You complete on your computer or by hand.
- **Part Two** – Your veterinarian completes. You will need to make an appointment to take your dog to the vet to have them complete the form.

When you have all the forms completed and have the other documents explained in Part One, email all the documents to

applications@minddog.org.au

You can scan all the documents or take a photo on your mobile phone to email them to mindDog.

Before mindDog can provide Trainee status for your new dog you will have to complete the six week observational diary provided in your new mindDog Book. A first visit with a mindDog Assessor will also be required.

All dogs must have good manners before wearing a mindDog vest. Even though it is fine to carry small dogs, they must also have good manners when on the ground.

Any dog that demonstrates boisterous behaviour, hackles-up, growls, shows teeth, lunges, bites or inappropriately eliminates is not ready to be a mindDog.

mindDog – helping dogs helping people

PART ONE**Some things you need to know****Who completes the two parts of this form?**

- Part One – You or your carer completes.
- Part Two – Your Veterinarian completes.

What to do when all parts are completed?

Email all forms and attachments to mindDog at

applications@minddog.org.au

Keep your email because it is your record of your Change of Dog with mindDog.

What happens when you email us the form?

- We check all parts of the form to make sure it is complete.
- We send you an Invoice and the mindDog Book.

What do you do when you receive the mindDog Book?

- The book will have instructions on what to do next.
