Other _____

Before mindDog can provide Trainee status for your new dog, you will have to repeat the six week home assessment. Upon receipt of this form mindDog will post a new Home Assessment booklet to you.

All dogs must master basic obedience before they begin wearing their Trainee vest. This is very important especially with small or toy breeds which are often picked up and carried. It is fine for you to carry your small dog but he must still be good at basic obedience.

A dog that demonstrates boisterous behaviour, nuisance barking, hackles-up, growling, showing teeth, lunging, biting, aggression, excessive fear, or inappropriate elimination is not ready to be a mindDog.

**mindDog tries to reduce costs whenever possible.
Please return your previous dog's vests and jacket.**
